Couple of spelling errors, haha so just take a look at that. The reset all tabs button is a bit hidden, so maybe just make it a bit lower. But love the whole idea! Looks great guys! Julie is 'n ou yster span!

I would be interested to see the different worlds used in this game, I am sure it is going to be amazing.

in the trailer, show us what she sees on the other side of the wall, eg. a vast number of other obstacles she still needs to pass.

Maybe a different font would increase the aesthetic? But the overall look and feel was very good

Would like to see it for mobile use.

Make the animation a bit faster

The animations to open the information panels take too long

What a nice website :)

Very well designed website, might need to look at alternate screen sizes for some of the animations.

Thank you for your time. We look forward to building from your input.

Conclusion:

Overall a lot of positive feedback from users, however a few of them did mention that they wanted more content such as images and more of a trailer for the game itself. All and all positive feedback and we took several of their observations into consideration for the website.
